ABSTRACT

Criminal law policy in law enforcement by the police where the function of the police is to maintain public order and security. Specifications as a variant of these functions, such as protecting and serving the community and guaranteeing the productive process of society to run well. In accordance with the functions of the police as mentioned above, the police must also carry out law enforcement in their own instances such as in the Mukomuko Regional Police to conduct acts of dismissal with no respect, detention of police who commit violations of the law, and violations of police regulations.
