

**THE INTERNATIONAL REVIEW OF RESEARCH
IN OPEN AND DISTRIBUTED LEARNING**

Advancing research, theory, and practice in open and distributed learning worldwide

1 University Drive, Athabasca Alberta Canada. T9S3A3

May 28, 2023

To whom it may concern:

This is to certify that **Nova Asvio** has completed a peer review for a research article published in the *International Review of Research in Open and Distributed Learning (IRRODL)*. IRRODL is the most widely read and cited journal in the field of open and distributed education. IRRODL employs a double-blind review process so that the names of neither the authors, nor the reviewers are revealed.

IRRODL is an open access journal that is indexed by all the major citation indexing systems. In 2023, more than 75% of IRRODL articles are cited by authors in other [Scopus](#) indexed journals. CiteScore is 4.2; SJR1.118; SNIP 1.638. IRRODL's percentile standing is 93% and it is the [highest ranked Canadian Education Journal](#) in SJR. IRRODL is also in the top 10% of most cited educational journals (86th of 1254 journals) and has an SSCI impact factor of 0.734 with a H5 index of 36 and a five-year impact factor of 1.003. The Scimago (SCOPUS) H index is 68. The ResearchGate Impact Factor is 1.35. According to [Google Scholar in 2020](#), IRRODL has a ranking of [5th among Educational Technology Journals](#) and a rank of 7th [of all Education Journals](#) (h5 index = 51; h5-median = 83). It is the only fully open access journal in the top 10.

We are thankful for this contribution to IRRODL.

Sincerely,

Professor Rory McGreal
Editor-in-Chief, *IRRODL*
