Keywords: Tasawuf modern

Abstract

Contemporary Sufism was born as one of the solutions for modern society in the global era, full of the problem, conflicts, problems, and spiritual, social, and moral phenomena that have hit his nation. Contemporary Sufism understanding always brings oneself closer to Allah SWT without forgetting one's social duties as a creature, and one lives actively and optimistically following the development of the times. Utilizing worship as a medium for Sufism, a positive attitude towards life in the form of a high social ethos, a burning fighting spirit, willingness to sacrifice for the benefit of the people, and working hard. The world is something tangible as a place for devotion so that the world is valuable and meaningful. It is just that every Muslim must acknowledge and be aware of the importance of religious spirituality, which can provide peace, comfort and tranquillity. In living this life, it is necessary to synergize worldly and spiritual interests. A worldly life that pays little attention to spiritual and religious feelings can lead to a materialistic-hedonistic and consumeristic personality contemporary Sufism bridges the balance between

the demands of physical needs while simultaneously providing spiritual needs and reviving religious/spiritual feelings.
