Title and Abstract

Title	Quality of Hadith on Social Media: Study of Hadith Memes about Lengthening Muslim Women's Clothing on Instagram Accounts @Ittiba.Id
-------	---

Abstract	This article is motivated by the phenomenon of the hadith meme of lengthening Muslim women's clothing on the Instagram account @ittiba.id. The hadith contained in the meme is not quoted in full, neither its sanad nor its counterpart, and it is also not accompanied by an explanation of either the hadith sharah or the opinions of scholars, this has caused differences of opinion among netizens in understanding the hadith. This article aims to examine further the quality and understanding of the hadith regarding lengthening Muslim women's clothing contained in the Instagram account @ittiba.id. In this study the author uses elements of major validity methods. The initial step in this research was to collect the hadiths about lengthening clothes contained in the Instagram account @ittiba.id, then classify them, then trace them into the original book and analyze each narrator contained in the hadith sanads, and then carry out a mature critique. This article finds that the hadith contained in the @ittiba.id Instagram account are of authentic quality and can be used as evidence. This hadith can be understood to mean that women are obliged to cover their entire private parts including their legs. You can lengthen the ends of your clothes and you can also use other objects such as socks. and related to the second hadith that the ends of Muslim women's clothing that sweeps the streets cannot be purified by the next soil, if the uncleanness that comes into contact with the ends of the clothes is wet.
