Dear Ali Akbarjono,

Manuscript ID: jehp\_547\_25

Managing Public Education on Smoking Behavior In Families With Stunted Children: Between Challenges and Opportunities In Indonesia  
Journal of Education and Health Promotion

Reviewers have now commented on your paper. You will see that they are advising that you revise your manuscript. If you are prepared to undertake the work required, I would be pleased to reconsider my decision.

For your guidance, reviewers' comments are appended below.

Reviewers' comments:

1. Clarify key terms such as "stunting," "exposure," and "parental knowledge" for consistency across the manuscript.
2. Standardize table and figure labeling (e.g., Table 1, Figure 2) and ensure all are referenced in the text.
3. Revise the abstract to be more concise and focus on the main findings and significance.
4. Correct minor grammatical issues—especially subject-verb agreement and use of plural "data."
5. Avoid redundancy in the discussion and conclusion by merging similar points.
6. Use consistent formatting for headings, spacing, and citations to align with journal style.

Yours sincerely,

Editorial Team

Journal of Education and Health Promotion
